In this connexion we would suggest to our fare in the connexion we would suggest to our farmers the propriety of making this experiment immediately, expecially as the ref has cut off the prospect of our ordinary supply. If the experiment succeeds as above represented, we should like to see whether by this means the rawages of the rot may be counteracted.—We are inclined to think it may, especially if (as some think) the injury is the result of an insect.

BURLINGTON, Vt. Sept. 27, 1846. A very said accident occurred upon the Lake at this place on Thursday last. It seems that three young men named Chaney, Thompson and Conol-ly, went out in a small row boat in the afternoon; and that towards evening the boat by some means. was overturned. They succeeded in getting upon it and clong to it, though in great distress and with great difficulty, from 7 o'clock until 11, when tomog Chancy, being overcome by the cold and fitigue, deed, and his body was lashed to the boat o Conolly, who was much older and could endure

Thompson, who was but a boy, became deranged from the hardships be suffered and jumped into the water, from which he was taken once or twice by Conolly who held him to the boat until he perished in his arms. The sole survivor of this little com drifted about the lake until morning, when he was washed ashore and taken up insensible. He was, of course, immediately cared for, and it is thought he will recover.—[Courier.

LEMUEL WHITNEY,

Judge of Probate. PERFECT CURE OF WORMS. Our little girl, 6 years old, has suffered all the woustages of worms; and we have never found an effective
al cure, until we administered Dr Smith's Sugar Pills,
which our little girl took without the least refuelence
in doses of two at a time, and we never witnessed
such a change in so short a time. The Pills brought
away a mass of worms, and she at once improved.—
She is now in joyous health. We have also found the
greatest benefit from their use.

TO MARRIED LADYES.

Married Ladies are simost invariably subject to that painful and injurious discease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the Back, flow of Blood to the head, &c. The Electuary is perfectly safe for Pregnant Ladies, and the most useful Catasrio that can possibly be used, as it will not only remove the Piles and all inflammatory discases, WITHOUT PAIN OR IRRITATION but will ensure an easy time, a safe delivery, and a sound constitution in the offspring. It is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the acvere scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Muthets, who have to pass through a sea of affliction is giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bother of the MOTHER'S RELIEF before confinement, then you can approach the parterient chamber without feeling as if you were going to the chamber of death. 28 PILLS for 25 cents—The Brisk Pills answer the purpose more effectually than any other Pills in use, and soperasde them altogether in medical virtue and excellence. If you doubt this, joss try them—it will soot only 35 cents—and then you, too, will be satisfied. If they are not recommended to utre every thing; but I do say, without fear of contradiction, that no pills are their equal in removing diseases originating in the stommth and howels. For liver affections and billious diseases, such as doubt age, fever and ague, international and remittant fevers, the Brisk Pills possess peculise proprieties for their speedy removal. From ten years experience as a precision physician, I am sometimed that some can equal them. Bead what other Pills are good for, and what they will care, and if the Brisk are not superiors to them all, they diseased what other Pills are good for, and what they will care, and if the Brisk are not superiors to them all, they diseased them. Do not believe all that is mid about an infallible pill—that never fails to cure any disease—but try the Brisk Pills—the checkpest Pills in one, and them you will lave a chance to judge of their merit or demerit. As a blood cleanuer, and a purifier to the diseased system, they perhaps supersede every pill in use. They are quick and easy in their operation, giving lile and tone to all the torput organs: throwing off impure matters or humors; leaving the system clean and healthy. This is all that any needesine can do, notwithstanding the great show of words and fletitious certificates. We are determined to let these pills stand goon their warn reputation, win or lose. All we ask is for a fair and impart and interest of an apprient pill for all family use. They have cured many diseases which no other medicine conditions between the series of the Brisk Pills, for they de possess peculiar properties and victum. Wholesale and ortail by J. O. All subject is one that cannot with propriety be fully discussed to this public manner, we invite all who feel interested to call on our agents (most of the respectable draggists in the United States,) or on the manufactorer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct repuison of its merits, and also the opinion of many physicians of emiactoe, and of persons who have become acquainted with its beneficial effects. We learn that spurious articles of Mother's Relief are put up by C. H. & J. H. Coleman, of Bullato, one Dr. Smith, of New York; also, Comstock, of N. Y.; his hottles and out, with the directions that are pasted on the buttle, are nearly a perfect fac simile to ours.—He once was an agent of ours, and has the genuine pamphlets: consequently it is well exceptated to deceive the public. Ask for Barthalich's Mother's Relict.—None is genoine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fac simile of our hand writing, also.
